

We are looking for a Lead Software Architect (f/m/d)

Fincite.Core

We are an international financial technology startup which became one of the biggest digital asset management B2B-providers in Germany within two years. As an SaaS company with products like robo advisors and other digital asset management solutions, we strive to become one of the leading European B2B-. Since growth is only possible with the right people, we are searching for you to take an active part on our way to the top.

Your Responsibilities

Building a Scaling Asset Management Platform

– You will be technically responsible for Fincite.Core, our technology platform. You decide upon the future architectural strategy of our software.

Structuring a Data Treasure – You oversee the Fincite.Core data model and you take decisions on structuring the data in the future and on introducing new data models.

Leading Teams and Processes – You master our development processes across teams, continents and time zones. You lead developers, manage teams and you form success.

Your Profile

Passion – As a bright and positive mind you are passionate about transforming a visionary idea into a scaling software platform.

Technology – You are experienced in Python especially in the usage of Django (C++ of advantage). You are experienced in using SQL databases and you have been working with APIs – consuming as well as building APIs.

Experience – You have experience building complex, modular software applications. Ideally you have worked in a Banking IT environment before. You should have experience in working in IT teams in an agile development process. Ideally you have been leading such a team. You are communicating well in English.

What we offer

While working in a young and ambitious team you will experience an open-minded and dynamic work environment in a modern office near the city center of Frankfurt. You will take responsibility very early in an environment with a flat hierarchy. For us every single team member and his or her voice counts. Our ambition is to grow the people in our team to leaders in their field.
